INTERNATIONAL CIVIL AVIATION ORGANIZATION
ORGANISATION DE L'AVIATION CIVILE INTERNATIONALE
ORGANIZACIÓN DE AVIACIÓN CIVIL INTERNACIONAL
МЕЖДУНАРОДНАЯ ОРГАНИЗАЦИЯ ГРАЖДАНСКОЙ АВИАЦИИ

Published by authority of the Secretary General of the International Civil Aviation Organization, to whom all correspondence, except orders and subscriptions, should be addressed.

Publié sous l'autorité du Secrétaire général de l'Organisation de l'aviation civile internationale, à qui toute correspondance, à l'exception des commandes et des abonnements, doit être adressée.

Publicado bajo la responsabilidad del Secretario General de la Organización de Aviación Civil Internacional, a quien debe dirigirse toda la correspondencia, con excepción de los pedidos y suscripciones.

Опубликовано с санкции Генерального секретаря Международной организации гражданской авиации, которому следует направлять всю корреспонденцию, за исключением заказов и подписки.

Orders should be sent to one of the following addresses, together with the appropriate remittance (by bank draft, cheque or money order) in U.S. dollars or the currency of the country in which the order is placed. Credit card orders (American Express, MasterCard and Visa) are accepted at ICAO Headquarters.

Envoyer les commandes à l'une des adresses suivantes en y joignant le montant correspondant (par chèque, chèque bancaire ou mandat) en dollars des États-Unis ou dans la monnaie du pays d'achat. Les commandes par carte de crédit (American Express, MasterCard et Visa) sont acceptées au Siège de l'OACI.

Los pedidos deben dirigirse a una de las direcciones siguientes junto con la correspondiente remesa (mediante giro bancario, cheque o giro internacional) en dólares estadounidenses o en la moneda del país de compra. En la Sede de la OACI se aceptan pedidos pagaderos con tarjetas de crédito (American Express, MasterCard y Visa).

Заказы следует направлять по одному из указанных ниже адресов с соответствующим денежным переводом (тратта, чек или банковское поручение) в долларах США или в валюте страны, в которой размещается заказ. Заказы с оплатой кредитными карточками ("Американ экспресс", "Виза" и "Мастеркард") направлять в адрес Штаб-квартиры ИКАО.

INTERNATIONAL CIVIL AVIATION ORGANIZATION
ORGANISATION DE L'AVIATION CIVILE INTERNATIONALE
ORGANIZACIÓN DE AVIACIÓN CIVIL INTERNACIONAL
МЕЖДУНАРОДНАЯ ОРГАНИЗАЦИЯ ГРАЖДАНСКОЙ АВИАЦИИ

The designations employed and the presentation of the material in this publication do not imply the expression of any opinion whatsoever on the part of ICAO concerning the legal status of any country, territory, city or area or of its authorities, or concerning the delimitation of its frontiers or boundaries.

Les appellations employées dans cette publication et la présentation des données qui y figurent n'impliquent de la part de l'OACI aucune prise de position quant au statut juridique des pays, territoires, villes ou zones, ou de leurs autorités, ni quant au tracé de leurs frontières ou limites.

Las denominaciones empleadas en esta publicación y la forma en que aparecen presentados los datos que contiene no implican, de parte de la OACI, juicio alguno sobre la condición jurídica de ninguno de los países, territorios, ciudades o áreas, o de sus autoridades, ni respecto de la delimitación de sus fronteras o límites.

Употребляемые обозначения и изложение материала в настоящем издании не означают выражения со стороны ИКАО какого бы то ни было мнения относительно правового статуса страны, территории, города или района, или их властей, или относительно делимитации их границ.

FOREWORD

This document contains a list of four-letter location indicators for geographical locations throughout the world, and a list of addresses of centres in charge of flight information regions (FIRs) and/or upper flight information regions (UIRs).

LOCATION INDICATORS

Location indicators are assigned by States and are supervised by ICAO by checking their conformity with the "Formulation and assignment of location indicators" set out below.

Stability in location indicators assigned is an important factor, hence changes should be made only after due consideration. This document is published as a service to international aviation and new editions will be issued as required. Any errors or omissions should be brought to the attention of the Secretary General of ICAO, 999 University Street, Montreal, Quebec, Canada H3C 5H7.

The development of a system of location indicators arose from Recommendations 1.2/3, 1.2/4 and 1.2/5 of the Communications Division, Sixth Session (cf. Doc 7831), modified by Recommendation 3 of the Third Meeting and by Recommendation 3/1 of the Sixth Meeting of the ICAO Panel of Teletypewriter Specialists. These recommendations were approved by the Council at the 10th Meeting of its Thirty-second Session on 6 December 1957, at the 18th Meeting of its Thirty-fifth Session on 15 December 1958, and the 12th Meeting of its Fifty-seventh Session on 4 April 1966 respectively. The principles for the formulation and assignment of location indicators contained in these recommendations are given below.

DEFINITIONS
(Annex 10, Volume II)

Aeronautical fixed service (AFS) — A telecommunication service between specified fixed points provided primarily for the safety of air navigation and for the regular, efficient and economical operation of air services.

Aeronautical fixed station — A station in the aeronautical fixed service.

Aeronautical fixed telecommunication network (AFTN) — A worldwide system of aeronautical fixed circuits provided, as part of the aeronautical fixed service, for the exchange of messages and/or digital data between aeronautical fixed stations having the same or compatible communications characteristics.

Location indicator — A four-letter code group formulated in accordance with rules prescribed by ICAO and assigned to the location of an aeronautical fixed station.

FORMULATION AND ASSIGNMENT OF LOCATION INDICATORS

Four-letter location indicators shall be formulated and assigned to identify those geographical locations at which there is situated a station forming part of the AFS.

Note.— Separate location indicators should not be assigned to different units at one geographical location when the appropriate use of three-letter designators will adequately cover the need.

1. *ESTABLISHMENT OF AERONAUTICAL FIXED SERVICE (AFS) ROUTING AREAS*

1.1 The world is divided into non-overlapping AFS routing areas, each of which is assigned a separate identifying letter. The areas so formed are shown on the chart that follows the Index.

1.2 The boundaries of these areas need not necessarily coincide with the boundaries of any State, territory or FIR but are decided solely from a consideration of the requirements of the AFS, so as to assist message traffic-routing processes to the maximum possible extent.

1.3 Each separate State or territory is assigned a separate identifying letter to permit differentiation between that State or territory and other States or territories in the same AFS routing area.

1.4 Separate identifying letters are assigned to parts of a State or territory:

a) where a separate State or territory is itself an AFS routing area, and

b) where routing uncertainties can exist at stations feeding traffic into that State or territory, and

c) where by so doing these routing uncertainties can be removed or alleviated.

1.5 No separate identifying letter is assigned where a separate State or territory contains only tributary stations.

1.6 Unallocated letters within each AFS routing area may be assigned as additional letters, by ICAO, at the request of a State having jurisdiction at location(s) within such area, in instances where additional assignment will facilitate the processes of message routing.

2. *ASSIGNMENT OF LOCATION INDICATORS*

2.1 *Assignment of the first letter of a location indicator*

The first letter of the location indicator shall be the letter assigned to the AFS routing area within which the location is situated, except that where the location is served only by a single communication centre situated in another AFS routing area, the first letter shall be that assigned to the area in which that communication centre is situated.

Note.— An AFS routing area can consist of a single State.

2.2 *Assignment of the second letter of a location indicator*

The second letter of the location indicator shall be the letter assigned to the State or territory (or portion thereof) within which the location is situated, except that where the location is served only by a single communication centre situated in another State or territory, the second letter shall be that assigned to the State or territory in which that communication centre is situated.

2.3 *Assignment of the third letter of a location indicator*

Where, in a State or territory, aeronautical fixed telecommunication stations are connected to a communication centre, the third letter of the location indicator should be so assigned as to assist in the process of routing to that communication centre.

2.4 *Assignment of the fourth letter of a location indicator*

In respect of the fourth letter, and in instances where assignment of the second and third letters is not prescribed under 1.3 and 1.5, the State concerned shall assign the letters as desired, except that those States assigned the identifying letter "N" in accordance with 2.2 should arrange their national allocation of specific four-letter location indicators so as to avoid the use of the combination "NN" for the third and fourth letters.

Note.— It is intended that "NNN" should not be used as the second, third and fourth letters of a location indicator.

2.5 *Other assignments*

2.5.1 In exceptional cases, geographical locations other than those served by the AFS may be given a location indicator at the discretion of the State having jurisdiction over the location concerned.

2.5.2 States that have introduced the predetermined distribution system[1] for AFTN messages may assign for that purpose location indicators constituted as follows:

First and second letters — the first two letters of the location indicator for the AFTN communication centre designated as the international terminal centre for the receiving country.

Third and fourth letters — the letters "ZZ" indicating a requirement for special distribution. These location indicators are not listed in this document.

3. *CHANGES IN THE ASSIGNMENT OF LOCATION INDICATORS*

3.1 Location indicators once assigned should only be amended after paying due regard to the worldwide repercussions of such changes upon all users of the communication services.

3.2 A location indicator should not be reassigned to another location for a period of at least six months after cancellation of its previous assignment.

3.3 Changes in the assignment of location indicators should be promulgated by NOTAM or AIP as far in advance of the effective date as practicable.

4. *USE OF LOCATION INDICATORS*

4.1 Location indicators that are assigned to locations to which messages cannot be addressed over the AFTN should be identified by an asterisk (*).

4.2 A location indicator alone does not constitute an addressee indicator or an originator indicator in AFTN messages. The aeronautical authority, service, unit or aircraft operating agency originating the message, or to whom the message is addressed, should be identified by adding to the location indicator the appropriate ICAO three-letter designator, as listed in Doc 8585 — *Designators for Aircraft Operating Agencies, Aeronautical Authorities and Services.*

4.3 *Identification of radio transmission*

ICAO location indicators should not be used for the identification of radio transmissions in lieu of "call signs" which are prescribed for this purpose in Article 19 of the ITU Radio Regulations (Geneva, 1959).

5. *ADDRESSES OF CENTRES IN CHARGE OF FIR/UIR*

5.1 For the purpose of addressing ATS messages to ATS centres (FIC/ACC) in charge of FIR and/or UIR, a system of addressee indicators has been devised.

5.2 Such an addressee indicator consists of the location of the ATS centre in charge, plus the three-letter designator:

ZQZX if the message is related to an IFR flight, and
ZFZX if the message is related to a VFR flight.

5.3 To assist in the correct addressing of the above-mentioned ATS messages, this section contains in alphabetical form by flight information region a listing of the FIR/UIR, the centres in charge of those regions and their respective location indicators.

---

1. For details, see Chapter 4 of Volume II of Annex 10 — *Aeronautical Telecommunications* and Appendix 5 of Annex 15 — *Aeronautical Information Services.*

EDITORIAL NOTE

This document consists of an Encode section (white pages) in which all place names are arranged alphabetically, and a Decode section (green pages) arranged alphabetically by location indicator. In addition, there is an Index (yellow pages) which shows the letters assigned to each State and/or territory, and a Glossary (white pages) which gives the equivalents in English, French, Spanish and Russian of the terms, expressions, administrative divisions, etc., which are used throughout the document.

All place names are spelled in accordance with the usage followed in the country concerned, except that where the name is not officially spelt by means of the Latin alphabet (e.g. Arabic, Chinese) it has been transliterated into its equivalent in the Latin alphabet. In most cases, this transliteration is based on the working language in which ICAO communicates with the State concerned. For example, place names of Lebanon (working language French) are given in the French form.

Where the place name identifies an aerodrome with a name different from that of the city it serves, the city name appears first, followed by an oblique stroke (/) and the name of the aerodrome, e.g. Montréal/Dorval. Where it is necessary to identify a particular facility, the place name is followed by the name of the facility in brackets, e.g. Alger (ACC).

The name of the State or the administrative division thereof (province, colony, etc.) is given immediately following the place name, using the spelling officially used in the State concerned, or its transliterated form.

AVANT-PROPOS

Le présent document est un répertoire mondial d'indicateurs d'emplacement géographique composés de quatre lettres et des adresses des centres chargés des régions d'information de vol (FIR) et/ou des régions supérieures d'information de vol (UIR).

INDICATEURS D'EMPLACEMENT

Ces indicateurs d'emplacement sont assignés par les États et contrôlés par l'OACI, qui vérifie qu'ils sont conformes aux règles de «Formation et assignation des indicateurs d'emplacement» exposées ci-dessous.

Il importe que les indicateurs d'emplacement assignés soient stables; aussi conviendra-t-il de ne les modifier qu'après mûre réflexion. Ce document est publié dans l'intérêt de l'aviation internationale et de nouvelles éditions seront diffusées selon les besoins. Toute erreur ou omission doit être signalée au Secrétaire général de l'OACI, 999, rue University, Montréal, Québec, Canada H3C 5H7.

Ces indicateurs d'emplacement font partie d'un système mis au point pour donner suite aux Recommandations 1.2/3, 1.2/4 et 1.2/5 de la Division des télécommunications, sixième session (cf. Doc 7831), modifiées par la Recommandation 3 de la 3e réunion du Groupe d'experts en téléimprimeurs de l'OACI, ainsi que par la Recommandation 3/1 de la 6e réunion du même groupe. Ces recommandations ont été approuvées par le Conseil le 6 décembre 1957, à la 10e séance de sa 32e session, le 15 décembre 1958, à la 18e séance de sa 35e session et le 4 avril 1966, à la 12e séance de sa 57e session. Les principes énoncés dans ces recommandations concernant la formation et l'assignation des indicateurs d'emplacement sont exposés ci-dessous.

DÉFINITIONS
(Annexe 10, Volume II)

Indicateur d'emplacement — Groupe de quatre lettres formé conformément aux règles prescrites par l'OACI et assigné à l'emplacement d'une station fixe aéronautique.

Réseau du service fixe des télécommunications aéronautiques (RSFTA) — Réseau mondial de circuits fixes aéronautiques destiné, dans le cadre du service fixe aéronautique, à l'échange de messages et/ou de données digitales entre stations fixes aéronautiques ayant des caractéristiques de communication identiques ou compatibles.

Service fixe aéronautique (SFA) — Service de télécommunications entre points fixes déterminés, prévu essentiellement pour la sécurité de la navigation aérienne et pour assurer la régularité, l'efficacité et l'économie d'exploitation des services aériens.

Station fixe aéronautique — Station du service fixe aéronautique.

FORMATION ET ASSIGNATION DES INDICATEURS D'EMPLACEMENT

Des indicateurs d'emplacement de quatre lettres seront formés et assignés pour identifier les emplacements géographiques où est implantée une station faisant partie du SFA.

Note.— Des indicateurs d'emplacement distincts ne devraient pas être assignés à des organismes différents situés au même emplacement géographique lorsque l'emploi approprié d'indicatifs de trois lettres permet de répondre correctement aux besoins.

1. *CRÉATION DE RÉGIONS D'ACHEMINEMENT DU SERVICE FIXE AÉRONAUTIQUE (SFA)*

1.1 Le monde est divisé en plusieurs régions d'acheminement du SFA, sans chevauchement, chaque région étant identifiée par une lettre distincte. La carte qui suit l'Index montre les régions ainsi établies.

1.2 La délimitation de ces régions ne doit pas nécessairement coïncider avec les frontières d'un État ou d'un territoire, ni avec les limites d'une FIR, mais elle est décidée strictement en fonction des besoins du SFA, de manière à faciliter, dans toute la mesure du possible, les opérations d'acheminement des messages.

1.3 Chaque État ou territoire est identifié par une lettre distincte de façon que l'on puisse différencier les États et territoires d'une même région d'acheminement du SFA.

1.4 Des lettres d'identification distinctes sont assignées à des parties d'un État ou d'un territoire, lorsque:

a) cet État ou ce territoire constitue à lui seul une région d'acheminement du SFA, et

b) les stations qui ont des messages à transmettre vers cet État ou ce territoire peuvent avoir des doutes quant à l'acheminement à suivre, et

c) les doutes peuvent être éliminés ou atténués de cette manière.

1.5 Il n'est pas assigné de lettre d'identification distincte lorsqu'un État ou un territoire ne comporte que des stations tributaires.

1.6 Les lettres non assignées dans une région d'acheminement du SFA peuvent être assignées par l'OACI comme lettres supplémentaires sur demande d'un État dont relèvent le ou les emplacements situés dans cette région, lorsque l'assignation supplémentaire doit faciliter l'acheminement des messages.

2. *ASSIGNATION DES INDICATEURS D'EMPLACEMENT*

2.1 *Assignation de la première lettre d'un indicateur d'emplacement*

La première lettre de l'indicateur d'emplacement sera la lettre assignée à la région d'acheminement du SFA dans laquelle se trouve l'emplacement; toutefois, lorsque cet emplacement n'est desservi que par un seul centre de communications situé dans une autre région d'acheminement du SFA, la première lettre sera celle qui est assignée à la région dans laquelle est situé ce centre de communications.

Note.— Un État peut constituer à lui seul une région d'acheminement du SFA.

2.2 *Assignation de la deuxième lettre de l'indicateur d'emplacement*

La deuxième lettre de l'indicateur d'emplacement sera la lettre assignée à l'État ou au territoire (ou à la partie de cet État ou de ce territoire) où se trouve l'emplacement; toutefois, lorsque cet emplacement n'est desservi que par un seul centre de communications situé dans un autre État ou territoire, la deuxième lettre sera celle qui est assignée à l'État ou au territoire dans lequel est situé ce centre de communications.

2.3 *Assignation de la troisième lettre de l'indicateur d'emplacement*

Lorsque dans un même État ou territoire des stations du service fixe des télécommunications aéronautiques sont reliées à un centre de communications, la troisième lettre de l'indicateur d'emplacement sera assignée de manière à faciliter les opérations d'acheminement vers cette station.

2.4 *Assignation de la quatrième lettre de l'indicateur d'emplacement*

En ce qui concerne la quatrième lettre, et dans les cas où l'assignation des deuxième et troisième lettres n'est pas régie par 1.3 et 1.5, l'État intéressé aura toute liberté pour effectuer les assignations comme il l'entendra, sous réserve que les États auxquels la lettre «N» aura été assignée conformément aux dispositions de 2.2 évitent, dans leur nomenclature nationale, d'attribuer «NN» comme troisième et quatrième lettres.

Note.— Il est entendu que «NNN» ne figurera pas comme deuxième, troisième et quatrième lettres dans un indicateur d'emplacement.

2.5 *Autres assignations*

2.5.1 Dans des cas exceptionnels, il est loisible aux États d'assigner des indicateurs d'emplacement à des emplacements géographiques qui ne sont pas desservis par le SFA et qui relèvent de leur autorité.

2.5.2 Les États qui ont adopté le système de distribution prédéterminée[1] des messages RSFTA peuvent assigner à cet effet des indicateurs d'emplacement constitués de la manière suivante:

Première et deuxième lettres — les deux premières lettres de l'indicateur d'emplacement du centre de communications RSFTA désigné comme centre terminal international du pays qui reçoit le message.

Troisième et quatrième lettres — les lettres «ZZ» qui indiquent que le message doit faire l'objet d'une distribution spéciale. Ces indicateurs d'emplacement ne figurent pas dans le présent document.

3. *CHANGEMENT D'ASSIGNATION DES INDICATEURS D'EMPLACEMENT*

3.1 Une fois assignés, les indicateurs d'emplacement ne devraient être modifiés qu'après avoir mûrement pesé les répercussions mondiales que peuvent avoir les changements apportés pour tous les usagers du service des télécommunications.

3.2 Un indicateur d'emplacement ne devrait pas être assigné à un autre emplacement avant qu'une période d'au moins six mois ne se soit écoulée depuis l'annulation de l'assignation précédente.

3.3 Les changements d'assignation des indicateurs d'emplacement devraient être promulgués par voie de NOTAM ou d'AIP le plus tôt possible avant la date à laquelle ils prennent effet.

4. *UTILISATION DES INDICATEURS*

4.1 Les indicateurs d'emplacement qui sont assignés à un emplacement autre que celui d'une station RSFTA et/ou qui ne peuvent être utilisés dans la partie adresse d'un message transmis sur le RSFTA seront identifiés par un astérisque (*).

4.2 Un indicateur d'emplacement ne constitue pas à lui seul un indicateur de destinataire ou un indicateur d'origine dans les messages du RSFTA. On devrait identifier l'administration, le service ou l'organe aéronautique, ou l'exploitant d'aéronefs ayant émis le message, ou auxquels le message est destiné en ajoutant, à l'indicateur d'emplacement, l'indicatif OACI de trois lettres approprié, tel qu'il figure au Doc 8585 — *Indicatifs des exploitants d'aéronefs et des administrations et services aéronautiques.*

4.3 *Identification des transmissions radio*

Les indicateurs d'emplacement de l'OACI ne devraient pas être utilisés aux fins d'identification des transmissions radio à la place des «indicatifs d'appel» prévus à cet effet par l'Article 19 du Règlement des radiocommunications de l'UIT (Genève, 1959).

5. *ADRESSES DES CENTRES CHARGÉS DES FIR/UIR*

5.1 Un système d'indicateurs de destinataires a été conçu pour adresser les messages ATS aux centres ATS (FIC/ACC) chargés des FIR et/ou des UIR.

5.2 Cet indicateur de destinataire se compose de l'indicateur d'emplacement du centre ATS en cause, suivi de l'indicatif à trois lettres:

ZQZX si le message se rapporte à un vol IFR, et
ZFZX si le message se rapporte à un vol VFR.

5.3 Pour faciliter la composition de l'adresse des messages ATS mentionnés ci-dessus, cette section donne la liste des FIR/UIR dans l'ordre alphabétique des régions d'information de vol ainsi que les centres chargés de chacune d'elles avec leur indicateur d'emplacement.

---

1. Pour plus de détails, voir le Chapitre 4 du Volume II de l'Annexe 10 — *Télécommunications aéronautiques* — et l'Appendice 5 de l'Annexe 15 — *Services d'information aéronautique.*

NOTE EXPLICATIVE

Le présent document comprend une partie Chiffrage (pages blanches) dans laquelle les noms de lieux sont classés dans l'ordre alphabétique, et une partie Déchiffrage (pages vertes) dans laquelle se trouvent les indicateurs d'emplacement qui sont classés dans l'ordre alphabétique. En outre, un Index (pages jaunes) indique les lettres attribuées à chaque État et/ou territoire, ainsi qu'un Glossaire (pages blanches) qui donne les équivalents, en français, anglais, espagnol et russe, des termes, expressions, noms de subdivisions administratives, etc., utilisés dans le répertoire.

Tous les noms de lieux sont orthographiés conformément à l'usage du pays en cause; toutefois, lorsqu'il n'y a pas d'orthographe officielle du nom de lieu en caractères latins (en Chine et pays de langue arabe, par exemple), le nom est indiqué avec l'orthographe de sa translitération en caractères latins. Dans la plupart des cas, cette translitération est basée sur la langue adoptée par l'État en cause pour ses relations avec l'OACI. Ainsi, les noms de lieux du Liban (langue adoptée: français) sont indiqués sous la forme française.

Lorsque le nom de lieu désigne un aérodrome dont le nom diffère de celui de la ville desservie, on indique d'abord le nom de la ville puis le nom de l'aérodrome, les deux noms étant séparés par une barre oblique (/), par exemple, Montréal/Dorval. Lorsqu'il est nécessaire d'identifier une certaine installation, le nom de lieu est suivi de la désignation de l'installation entre parenthèses, par exemple Alger (ACC).

Le nom de l'État ou de la subdivision administrative (province, colonie, etc.) est indiqué immédiatement après le nom de lieu, dans la langue du pays en cause ou dans la translitération.

PREÁMBULO

Este documento contiene una lista de indicadores de lugar de cuatro letras para lugares geográficos en todo el mundo y una lista de las direcciones de los centros encargados de las regiones de información de vuelo (FIR) o regiones superiores de información de vuelo (UIR).

INDICADORES DE LUGAR

Dichos indicadores de lugar se asignan por los Estados y se supervisan por la OACI, que verifica que están de acuerdo con los principios relativos a la "Formulación y asignación de indicadores de lugar" que se exponen más adelante.

Es importante que los indicadores de lugar asignados sean estables y, por to tanto, sólo deberían modificarse después de su debida consideración. Este documento se publica como un servicio para la aviación internacional y nuevas ediciones se publicarán cuando se considere necesario. Cualquier error u omisión debe comunicarse al Secretario General de la OACI, 999 University Street, Montreal, Quebec, Canadá H3C 5H7.

La preparación de un sistema de indicadores de lugar dimana de las Recomendaciones 1.2/3, 1.2/4 y 1.2/5 de la Sexta Conferencia del Departamento de comunicaciones (véase Doc 7831), modificadas por la Recomendación 3 de la Tercera Reunión del Grupo OACI de especialistas en teletipos así como por la Recomendación 3/1 de la Sexta Reunión de dicho Grupo. El Consejo aprobó estas recomendaciones en la 10ª sesión de su 32° período, el 6 de diciembre de 1957, en la 18ª sesión de su 35° período el 15 diciembre de 1958, y en la 12ª sesión de su 57° período, el 4 de abril de 1966, respectivamente. Más adelante se incluyen los principios para la formulación y asignación de los indicadores de lugar que figuran en estas recomendaciones.

DEFINICIONES
(Anexo 10, Volumen II)

Estación fija aeronáutica — Estación del servicio fijo aeronáutico.

Indicador de lugar — Grupo de clave, de 4 letras, formulado de acuerdo con las disposiciones prescritas por la OACI y asignado al lugar en que está situada una estación fija aeronáutica.

Red de telecomunicaciones fijas aeronáuticas (AFTN) — Sistema completo y mundial de circuitos fijos aeronáuticos dispuestos como parte del servicio fijo aeronáutico, para el intercambio de mensajes o de datos numéricos entre estaciones fijas aeronáuticas que posean características de comunicación idénticas o compatibles.

Servicio fijo aeronáutico (AFS) — Servicio de telecomunicaciones entre puntos fijos determinados, que se suministra primordialmente para seguridad de la navegación aérea y para que sea regular, eficiente y económica la operación de los servicios aéreos.

FORMULACIÓN Y ASIGNACIÓN DE INDICADORES DE LUGAR

Se formularán y asignarán indicadores de lugar de cuatro letras para identificar los lugares geográficos donde esté situada una estación que forme parte del AFS.

Nota.— No deberían asignarse indicadores de lugar diferentes a dependencias distintas situadas en el mismo lugar geográfico cuando el empleo apropiado de designadores de tres letras satisfaga adecuadamente las necesidades.

1. *ESTABLECIMIENTO DE ÁREAS DE ENCAMINAMIENTO DE LOS SERVICIOS FIJOS AERONÁUTICOS (AFS)*

1.1 El mundo se divide en áreas de encaminamiento de los AFS que no se superponen parcialmente, a cada una de las cuales se les asigna una letra distinta de identificación. Las áreas asignadas se indican en la carta que sigue el Índice.

1.2 Los límites de estas áreas no tienen que coincidir forzosamente con los de un Estado, territorio o FIR, sino que se deciden solamente teniendo en cuenta los requisitos del AFS a fin de facilitar en el mayor grado posible las operaciones de encaminamiento del tráfico de mensajes.

1.3 A cada Estado o territorio separado se le asigna una letra distinta de identificación para poder diferenciar dicho Estado o territorio de otros Estados o territorios que se encuentren en la misma área de encaminamiento del AFS.

1.4 Se asignan letras distintas de identificación a partes de un Estado o territorio:

a) cuando un Estado o territorio separado constituya por sí mismo un área de encaminamiento del AFS, y

b) cuando pueda haber dudas de encaminamiento en las estaciones que transmitan el tráfico de mensajes a ese Estado o territorio, y

c) cuando al proceder de esta manera puedan eliminarse o atenuarse estas dudas de encaminamiento.

1.5 No se asigna ninguna letra distinta de identificación cuando un Estado o territorio separado tenga solamente estaciones tributarias.

1.6 Las letras no distribuidas dentro de cada área de encaminamiento del AFS pueden asignarse por la OACI a petición de un Estado que tenga jurisdicción en el lugar o lugares situados dentro de dicha área en los casos en que la asignación adicional facilite el encaminamiento de los mensajes.

2. *ASIGNACIÓN DE INDICADORES DE LUGAR*

2.1 *Asignación de la primera letra de un indicador de lugar*

La primera letra del indicador de lugar será la letra asignada al área de encaminamiento del AFS dentro de la cual está situado el lugar, con la excepción de que, cuando el lugar esté servido únicamente por un solo centro de comunicaciones situado en otra área de encaminamiento del AFS, la primera letra será la que esté asignada al área dentro de la cual está situado dicho centro de comunicaciones.

Nota.— Un área de encaminamiento del AFS puede constar de un solo Estado.

2.2 *Asignación de la segunda letra de un indicador de lugar*

La segunda letra del indicador de lugar será la letra asignada al Estado o territorio (o parte del mismo) dentro del cual esté situado el lugar, con la excepción de que, cuando el lugar esté servido únicamente por un solo centro de comunicaciones situado en otro Estado o territorio, la segunda letra será la que esté asignada al Estado o territorio dentro del cual esté situado dicho centro de comunicaciones.

2.3 *Asignación de la tercera letra de un indicador de lugar*

Cuando en un mismo Estado o territorio las estaciones del servicio fijo de telecomunicaciones aeronáuticas estén enlazadas con un centro de comunicaciones, debería asignarse la tercera letra del indicador de lugar de modo que facilite las operaciones de encaminamiento hacia dicho centro de comunicaciones.

2.4 *Asignación de la cuarta letra de un indicador de lugar*

Respecto a la cuarta letra, y en los casos en que no se prescriba en 1.3 y 1.5 la asignación de la segunda y tercera letras, el Estado interesado asignará las letras según desee, con la excepción de que aquellos Estados a los que se asigne la letra identificadora "N", de conformidad con 2.2, deberían hacer su asignación nacional de indicadores específicos de lugar de cuatro letras de forma que eviten el empleo de la combinación "NN" como tercera y cuarta letras.

Nota.— Queda entendido que "NNN" no deberá utilizarse como segunda, tercera y cuarta letras de un indicador de lugar.

2.5 *Otras asignaciones*

2.5.1 En casos excepcionales, a los lugares geográficos que no sean los servidos por el servicio fijo aeronáutico puede dárseles un indicador de lugar a discreción del Estado que tenga jurisdicción sobre el lugar de que se trate.

2.5.2 Los Estados que han introducido el sistema de distribución predeterminada[1] para los mensajes de la AFTN pueden asignar para ese fin los designadores de lugar, constituidos en la siguiente forma:

Letras primera y segunda — las dos primeras letras del indicador de lugar para el centro de comunicaciones de la AFTN designado como centro terminal internacional del país receptor.

Letras tercera y cuarta — las letras "ZZ" indicando la necesidad de distribución especial. Estos indicadores de lugar no figuran en este documento.

3. *CAMBIOS EN LA ASIGNACIÓN DE LOS INDICADORES DE LUGAR*

3.1 Una vez asignados los indicadores de lugar, sólo deberían enmendarse después de tener debidamente en cuenta las repercusiones mundiales de tales cambios para los usuarios de los servicios de comunicaciones.

3.2 No debería volverse a asignar un indicador de lugar a otro lugar durante un período de seis meses, como mínimo, después de que se haya anulado su asignación previa.

3.3 Los cambios de asignación de indicadores de lugar deberían promulgarse por medio de NOTAM o AIP con la mayor antelación posible a la fecha de efectividad.

4. *UTILIZACIÓN DE INDICADORES DE LUGAR*

4.1 Los indicadores de lugar que se asignan a lugares a los cuales no es posible cursar mensajes por la AFTN, deberían identificarse con un asterisco (*).

4.2 Un indicador de lugar no constituye por sí solo un indicador de destinatario ni un indicador de remitente en los mensajes de la AFTN. La entidad aeronáutica oficial, el servicio, dependencia o empresa explotadora de aeronaves que envía el mensaje, o a la cual el mensaje va dirigido, debería identificarse añadiendo al indicador de lugar el apropiado designador de tres letras de la OACI, tomado del Doc 8585 — *Designadores de empresas explotadoras de aeronaves, de entidades oficiales y de servicios aeronáuticos.*

4.3 *Identificación de transmisiones de radio*

Los indicadores de lugar de la OACI no deberían utilizarse para la identificación de las transmisiones de radio en vez de los "distintivos de llamada" prescritos para este fin en el Artículo 19 del Reglamento de Radiocomunicaciones de la UIT (Ginebra, 1959).

5. *DIRECCIONES DE LOS CENTROS ENCARGADOS DE LAS FIR/UIR*

5.1 Para dirigir mensajes ATS a los centros ATS (FIC/ACC), encargados de regiones de FIR o de UIR, se ha ideado un sistema de indicadores de destinatario.

5.2 Dicho indicador de destinatario consta de un indicador de lugar del centro ATS encargado, más el designador de tres letras:

ZQZX si el mensaje se relaciona con un vuelo IFR, y
ZFZX si el mensaje se relaciona con un vuelo VFR.

5.3 Para ayudar a componer correctamente la dirección de los susodichos mensajes ATS, esta sección contiene, en orden alfabético, por regiones de información de vuelo una lista de las FIR/UIR, los centros encargados de dichas regiones y sus respectivos indicadores de lugar.

---

1. Para los detalles véanse el Capítulo 4 del Volumen II del Anexo 10 — *Telecomunicaciones aeronáuticas* y el Apéndice 5 del Anexo 15 — *Servicios de información aeronáutica.*

NOTA DE REDACCIÓN

Este documento consta de una sección dedicada al cifrado (páginas blancas) en la que todos los nombres de lugares aparecen en orden alfabético, y de una sección de descifrado (páginas verdes) con los nombres ordenados alfabéticamente según los indicadores de lugar. Comprende además (páginas amarillas) un índice en el que se indican las letras asignadas a cada Estado o territorio, y un glosario (páginas blancas) con las equivalencias en español, inglés, francés y ruso de los términos, expresiones, departamentos administrativos, etc., utilizados en el documento.

Todos los nombres de lugares aparecen escritos de acuerdo con el uso del Estado respectivo, excepto cuando el nombre no se escriba oficialmente empleando el alfabeto latino (per ejemplo, arábigo y chino), en cuyo caso se transcribe en los caracteres latinos equivalentes. En la mayoría de los casos, esta transcripción se basa en el idioma oficial que la OACI utiliza en sus comunicaciones con el Estado respectivo. Por ejemplo, los nombres de lugares del Líbano (idioma usado: francés) se dan en forma francesa.

Cuando un nombre de lugar identifica a un aeródromo con nombre diferente del de la ciudad a que sirve, aparece primero el nombre de la ciudad, seguido de un trazo oblicuo (/) y a continuación el nombre del aeródromo, por ejemplo, Montréal/Dorval. Cuando sea necesario identificar una instalación determinada, el nombre del lugar va seguido per el nombre de la instalación entre paréntesis, per ejemplo, Alger (ACC).

El nombre del Estado o de las divisiones administrativas del mismo (provincia, colonia, etc.) figura inmediatamente después del nombre del lugar, escrito en la forma adoptada oficialmente en el Estado de que se trate, o en la forma transcrita.

ПРЕДИСЛОВИЕ

Данный документ содержит перечень четырехбуквенных указателей местоположения для географических мест во всем мире и перечень адресов центров, ответственных за район полетной информации и (или) верхний район полетной информации.

УКАЗАТЕЛИ МЕСТОПОЛОЖЕНИЯ

Указатели местоположения назначаются государствами и контролируются ИКАО с помощью проверки их соответствия разделу "Разработка и назначение указателей местоположения", приведенному ниже.

Важным фактором является стабильность назначенных указателей местоположения, и поэтому изменения должны вноситься только после соответствующего рассмотрения. Данный документ издан для обслуживания международной авиации, и, при необходимости, будут подготовлены новые издания. О любых ошибках или пропусках следует сообщать Генеральному секретарю ИКАО по адресу: 999 University Street, Montreal, Quebec, Canada, H3C 5H7.

Разработка системы указателей местоположения проводилась в соответствии с рекомендациями 1.2/3, 1.2/4 и 1.2/5 шестой сессии Специализированного совещания по связи (см. Doc 7831-COM/551/1), измененными рекомендацией 3 третьего совещания и рекомендацией 3/1 шестого совещания Группы экспертов по телетайпной связи. Данные рекомендации были утверждены Советом на 10-м заседании тридцать второй сессии 6 декабря 1957 года, на 18-м заседании тридцать пятой сессии 15 декабря 1958 года и на 12-м заседании пятьдесят седьмой сессии 4 апреля 1966 года соответственно. Ниже приведены принципы разработки и назначения указателей местоположения, содержащихся в данных рекомендациях.

ОПРЕДЕЛЕНИЯ
(Том II Приложения 10)

Авиационная фиксированная служба (AFS). Служба электросвязи между определенными фиксированными пунктами, предназначенная, главным образом, для обеспечения безопасности аэронавигации, а также регулярности, эффективности и экономичности воздушных сообщений.

Авиационная фиксированная станция. Станция авиационной фиксированной службы.

Сеть авиационной фиксированной электросвязи (AFTN). Всемирная система авиационных фиксированных цепей, являющаяся частью авиационной фиксированной службы и предусматривающая обмен сообщениями и (или) цифровыми данными между авиационными фиксированными станциями с аналогичными или совместимыми связными характеристиками.

Указатель (индекс) местоположения. Четырехбуквенная кодовая группа, составляемая в соответствии с предписанными ИКАО правилами и присваиваемая для обозначения местоположения авиационной фиксированной станции.

РАЗРАБОТКА И НАЗНАЧЕНИЕ УКАЗАТЕЛЕЙ МЕСТОПОЛОЖЕНИЯ

Четырехбуквенные указатели местоположения разрабатываются и назначаются для обозначения тех географических мест, в которых расположена станция, являющаяся частью авиационной фиксированной службы.

Примечание. Отдельные указатели местоположения не назначаются для различных служб в одном географическом месте, если соответствующее использование трехбуквенных обозначений надлежащим образом удовлетворяет потребности.

1. *УСТАНОВЛЕНИЕ РАЙОНОВ ЗАДАННЫХ МАРШРУТОВ АВИАЦИОННОЙ ФИКСИРОВАННОЙ СЛУЖБЫ* (AFS)

1.1 Весь мир поделен на неперекрывающиеся районы заданных маршрутов авиационной фиксированной службы, каждому из которых назначена отдельная буква указателя. Районы, организованные таким образом, приведены на карте, которая следует за разделом алфавитного указателя.

1.2 Границы данных районов не нужно совмещать с границами любого государства, территории или района полетной информации. Однако они рассматриваются исключительно, исходя из требований авиационной фиксированной службы для того, чтобы оказать максимально возможную помощь при передаче трафика сообщений.

1.3 Каждому конкретному государству или территории назначается конкретная идентификационная буква, позволяющая обеспечить различие между государством или территорией и другими государствами или территориями в том же районе заданных маршрутов авиационной фиксированной службы.

1.4 Конкретные идентификационные буквы назначаются определенным частям государства или территории:

a) если отдельное государство или территория сами по себе являются районом заданных маршрутов авиационной фиксированной службы, и

b) если неопределенности маршрутизации могут иметь место на станциях, обеспечивающих трафик сообщений для данного государства или территории, и

c) если при таком подходе данные неопределенности маршрутизации можно устранить или обойти.

1.5 Отдельная идентификационная буква не назначается, если в конкретном государстве или территории имеются только низовые станции.

1.6 Нераспределенные буквы в пределах района заданных маршрутов авиационной фиксированной службы могут назначаться ИКАО в качестве дополнительных букв по запросу государства, под юрисдикцией которого находится данное место (места) в пределах этого района, в случаях, если дополнительное назначение облегчит процесс маршрутизации сообщений.

2. *НАЗНАЧЕНИЕ УКАЗАТЕЛЕЙ МЕСТОПОЛОЖЕНИЯ*

2.1 *Назначение первой буквы указателя местоположения*

Первая буква указателя местоположения является буквой, назначаемой району заданных маршрутов авиационной фиксированной службы, в пределах которого находится данная станция, за исключением случаев, когда данная станция обслуживается только одним центром связи, расположенным в другом районе заданных маршрутов авиационной фиксированной службы, первая буква является буквой, назначенной району, в котором расположен этот центр связи.

Примечание. В район заданных маршрутов авиационной фиксированной службы может входить одно государство.

2.2 *Назначение второй буквы указателя местоположения*

Вторая буква указателя местоположения является буквой, назначаемой государству или территории (или их части), в пределах которых расположен данный центр, за исключением случаев, когда данная станция обслуживается только одним центром связи, расположенным в другом государстве или на другой территории, вторая буква является буквой, назначаемой государству или территории, в которой находится этот центр связи.

2.3 *Назначение третьей буквы указателя местоположения*

Если в государстве или территории станции авиационной фиксированной электросвязи соединены с центром связи, третья буква указателя местоположения должна быть буквой, назначаемой для облегчения процесса маршрутизации сообщений для данного центра связи.

2.4 *Назначение четвертой буквы указателя местоположения*

В отношении четвертой буквы и в тех случаях, когда назначение второй и третьей букв не предписывается в п. 1.3 и п. 1.5, заинтересованное государство назначает буквы по своему желанию, за исключением тех государств, которым назначена идентификационная буква "N" в соответствии с п. 2.2 и которые должны обеспечить распределение на национальном уровне специальных четырехбуквенных указателей местоположения таким образом, чтобы избежать использования комбинации "NN" для третьей и четвертой букв.

Примечание. Предполагается, что обозначение "NNN" не должно использоваться в качестве второй, третьей и четвертой букв указателя местоположения.

2.5 *Другие назначения*

В исключительных случаях, географические места, отличающиеся от тех, которые обслуживаются авиационной фиксированной службой, могут иметь указатель местоположения, выбранный по усмотрению государства, осуществляющего юрисдикцию над рассматриваемым местоположением.

2.5.2 Государства, которые ввели предварительно определенные системы распределения[1] для сообщений AFTN, могут назначать для этой цели указатели местоположения, выбранные следующим образом:

Первая и вторая буквы — первые две буквы указателя местоположения для центра связи AFTN, определенного в качестве международного конечного центра для принимающей страны.

Третья и четвертая буквы — буквы "ZZ", указывающие требования в отношении специального распределения. Данные указатели местоположения не приведены в настоящем документе.

3. *ИЗМЕНЕНИЯ В НАЗНАЧЕНИИ УКАЗАТЕЛЕЙ МЕСТОПОЛОЖЕНИЯ*

3.1 Если указатели местоположения назначены, их следует изменять только после соответствующего рассмотрения комментариев в мировом масштабе на такие изменения всех пользователей служб связи.

3.2 Указатель местоположения не должен вновь назначаться для другого места в течение по крайней мере шести месяцев после аннулирования предыдущего назначения.

3.3 Изменения назначения указателей местоположения следует публиковать в NOTAM или AIP как можно раньше до даты вступления в силу.

4. *ИСПОЛЬЗОВАНИЕ УКАЗАТЕЛЕЙ МЕСТОПОЛОЖЕНИЯ*

4.1 Указатели местоположения, назначенные для мест, в которые невозможно направить сообщение по AFTN, следует указать с помощью звездочки (*).

4.2 Сам по себе указатель местоположения в сообщении AFTN не является указателем адреса или указателем составителя. Авиационный полномочный орган, служба, подразделение или эксплуатант воздушных судов, составляющие сообщение или которым направлено сообщение, должны указываться с помощью добавления к указателю местоположения соответствующего трехбуквенного указателя ИКАО, приведенного в документе Doc 8585 — *Условные обозначения эксплуатантов воздушных судов, авиационных полномочных органов и служб.*

4.3 *Обозначения радиопередач*

Указатели местоположения ИКАО не следует использовать для обозначения радиопередач вместо "позывных", которые для данной цели предписываются в статье 19 Регламента радиосвязи МСЭ (Женева, 1959).

5. *АДРЕСА ЦЕНТРОВ, ОТВЕТСТВЕННЫХ ЗА FIR/UIR*

5.1 Для целей адресования сообщений ОВД центрам ОВД (FIC/ACC), ответственным за районы полетной информации (FIR) и (или) верхние районы полетной информации (UIR), была разработана система указателей адресатов.

5.2 Такой указатель адресата состоит из указателя местоположения ответственного центра ОВД плюс трехбуквенный указатель:

ZQZX, если сообщение касается полета по ППП, и
ZFZX, если сообщение касается полета по ПВП.

5.3 Для оказания помощи в правильном адресовании указанных выше сообщений ОВД, данный раздел содержит в алфавитной форме по районам полетной информации перечень FIR/UIR, ответственных центров этих районов и соответствующие указатели местоположения.

---

1. В отношении подробных данных см. главу 4 тома II Приложения 10 - *Авиационная электросвязь* и добавление 5 к Приложению 15 - *Службы аэронавигационной информации.*

РЕДАКЦИОННЫЕ ПРИМЕЧАНИЯ

Данный документ содержит раздел, касающийся кодирования (белые страницы), в котором все наименования расположены в алфавитном порядке, и раздел, касающийся декодирования (зеленые страницы), в котором в алфавитном порядке представлены указатели местоположения. Кроме того, имеется алфавитный указатель (желтые страницы), в котором приводятся буквы, назначаемые каждому государству и (или) территории, и терминологический раздел (белые страницы), в котором приводятся эквиваленты английских, французских, русских и испанских терминов, выражений, административных подразделений и т.д., используемые в тексте документа.

Написание всех названий мест производится в соответствии с их употреблением в данной стране, за исключением случаев, когда название официально не имеет написания латинскими буквами (например, арабский, китайский), они переведены с помощью транслитерации в их эквиваленты латинского алфавита. В большинстве случаев такая транслитерация основана на рабочем языке, на котором обеспечивается связь ИКАО с данным государством. Например, названия мест в Ливане (рабочий язык французский) приводятся на французском языке.

Если название места соответствует аэродрому и отличается от названия обслуживаемого города, название города указывается вначале, а затем после наклонной черты (/) приводится название аэродрома, например, Montreal/Dorval. Если необходимо указать конкретно средство, после названия места идет название средства в скобках, например Alger (ACC).

Название государства или его административного подразделения (провинция, колония и т.д.) приводится сразу же после названия места, с использованием написания, официально принятого в данном государстве, или в форме транслитерации.

ADDRESSES OF CENTRES IN CHARGE OF FIR/UIR*
(cf. Foreword, paragraph 5)

ADRESSES DES CENTRES CHARGÉS DES FIR/UIR*
(cf. Avant-propos, paragraphe 5)

DIRECCIONES DE LOS CENTROS ENCARGADOS DE LAS FIR/UIR*
(Véase Preámbulo, párrafo 5)

АДРЕСА ЦЕНТРОВ, ОТВЕТСТВЕННЫХ ЗА РАЙОН ПОЛЕТНОЙ ИНФОРМАЦИИ/ВЕРХНИЙ РАЙОН ПОЛЕТНОЙ ИНФОРМАЦИИ*
(см. предисловие, пункт 5)

* When addressing ATS messages to the ATS Centre in charge of an FIR or a UIR, one of the following four-letter designators should be added to the location indicator to complete the addressee indicator:
  if the message is related to an IFR flight: ZQZX
  if the message is related to a VFR flight: ZFZX

* L'un des indicatifs à quatre lettres ci-après doit être utilisé pour compléter l'indicateur d'emplacement du destinataire lorsque des messages ATS sont adressés au Centre ATS chargé d'une FIR ou d'une UIR:
  si le message concerne un vol IFR : ZQZX
  si le message concerne un vol VFR : ZFZX

* Cuando se envían mensajes ATS a los Centros ATS encargados de una FIR o UIR, deberá agregarse uno de los siguientes designadores de cuatro letras para completar el indicador del destinatario:
  en un mensaje relativo a un vuelo IFR: ZQZX
  en un mensaje relativo a un vuelo VFR: ZFZX

* При направлении сообщений ОВД в центр ОВД, ответственный за FIR/UIR, для заполнения указателя адреса к указателям местоположения следует добавлять следующие четырехбуквенные кодовые обозначения:
  если сообщение касается полета по ППП: ZQZX
  если сообщение касается полета по ПВП: ZFZX

UL = Upper Limit · Limite supérieure · Límite superior · Верхняя граница района полетной информации
